

THE BLAIRMORE ENTERPRISE

VOL. XIX, NO. 36.

THE BLAIRMORE ENTERPRISE.

THURSDAY, SEPTEMBER 6, 1928.

\$2.00 PER ANNUM

Court was held at Coleman on Tuesday, presided over by Judge McDonald, of Macleod. The appeal of the McLaren Lumber Company, Limited, against a decision of Magistrate Gresham, was upheld, and parties accused of stealing logs belonging to the company were found guilty, and fined.

Artful Lardino, aged sixteen, sustained injuries and died before reaching hospital, when a team ran away near Coleman on Monday evening. He had driven a short distance from the field and in some manner slipped over the front of the wagon. The remains were laid to rest at Coleman Wednesday afternoon.

BIG ANNUAL FIELD DAY AT BLAIRMORE NEXT WEDNESDAY

The big field day, which owing to inclement weather had to be postponed, indefinitely from Dominion Day, July 1st, is to be held on Wednesday next, September the 12th, on the Blaimore athletic grounds, commencing promptly at 10 a.m.

We understand that His Worship the Mayor has declared a civic holiday for that day, so that everyone can enter wholeheartedly in the day's events.

The programme of sports, as arranged for July 1st, will be carried out, with exception of the football tournament and five-mile marathon. There will be various races, jumps, tug-of-war, etc., and a baseball tournament, in which teams from Coleman, Hillcrest and Blaimore will compete.

Arrangements are also being made for a big dance in the Arena at night, for which the Knights of Rhythm will furnish music.

Admission to the grounds will be by tag. Tags purchased for July 1st will be good on this occasion.

Children are also reminded that the Elks will observe Wednesday next as Flag Day.

I.O.E. MEETING

The first regular meeting for the fall of the Crow's Nest Chapter, I.O.E., will be held at the Greenhill hotel on Monday next at 7.30 p.m. All members are urged to be present.

BELLEVUE'S ELEVENTH FAIR THE BIGGEST AND BEST YET

Thousands of people from all over Southern Alberta and Southeastern British Columbia followed the trails that led to Bellevue on Monday, to witness what was claimed by the judges to be the biggest and best flower, vegetable, poultry, art and domestic science show ever staged in Alberta. Thousands of exhibits were there to be considered by the very capable staff of judges, all of the very highest quality that would do credit to any part of the world.

Coupled with the exhibition was a splendid display staged by the Dominion Forestry Department under the capable management of Mr. H. Boulton, of Coleman, who handed out attractive souvenirs to the hundreds of visitors to his department. This display was mainly in the interests of fire prevention and forest protection, and carried with it some preserved specimens of the beautiful fish with which our streams abound. Without the forests, the streams and fish would be annihilated.

The sports during the afternoon were largely attended and the various events keenly contested. In the five-mile marathon there were three entries, Blake winning quite easily.

Bands were in attendance at the sports grounds during the sports and fair, and added greatly to the pleasure of the day.

The carnival staged in conjunction with the fair under the auspices of the Bellevue Arena Company, on Saturday, Monday and Tuesday nights, was also well patronized. Various stalls were operated and the dancing pavilion proved the usual big attraction. Towards the close of the carnival on Tuesday night, the draw for the big prize was made from duplicates of the admission tickets, the winning number being held by a citizen of Saunders Creek, Alberta, who was presented with a fully equipped Durant Sedan car.

Altogether, the whole affair was the most successful yet staged in Bellevue.

In a later issue, we hope to publish a complete list of entries and awards made in connection with the fair.

DEATH OF MRS. R. T. JOHNSON

The community of Bellevue received a shock this forenoon when it became known that Mrs. R. T. Johnson had passed away suddenly.

Mrs. Johnson had just returned from Calgary, to which place she had accompanied her daughter to enter normal school.

Funeral arrangements are not completed as we go to press, but in all probability the funeral will take place on Saturday afternoon.

Mrs. Johnson is the wife of R. T. Johnson, of the general store firm of Johnson & Cousins.

DEATH OF "HUGHIE" MACILLAN

Another landmark has been removed in the person of Mr. Hugh Douglas MacMillan, for many years proprietor of the Cowley hotel at Cowley and one of the best known and most outstanding figures in the social life of southern Alberta, who passed away very suddenly at Pincher Creek on Sunday morning.

Mr. MacMillan was about sixty-one years of age and was predeceased by his wife and only daughter a number of years. He was a prominent Mason and Oddfellow and a member of Blaimore Lodge of Elks. Only about two years ago Mr. MacMillan was presented by the members of Cowley Lodge and the Grand Lodge of Alberta with an Oddfellows' veteran's jewel. He was one of the real old timers of this district, having come to Cowley about twenty years ago. He took a very active part in all social activities and through his cheerful personality won unbounded respect from all with whom he came in contact.

He is survived by two sisters, Mrs. (Dr.) Hayt, of Glasgow, Montana, and Mrs. Barnhardt, of Cornwall, Ontario; and by one brother, James, of Butte, Montana. He was born in Glenora, Ontario, on January the 31st, 1867. When but eighteen he moved to Helena, Montana, and two years later travelled to Fort Steele, where he operated a barber shop for some years. He disposed of the Cowley hotel property but a few months ago.

SAMUEL JENNINGS DIES AT VANCOUVER

Word has been received of the death of Samuel, beloved son of Mr. and Mrs. Samuel Jennings, which occurred at Vancouver on August the 28th, at the age of twenty years.

Besides his parents, he is survived by three brothers, John, of Pasburgh, Alberta; Al and James, at home; and four sisters, Mrs. R. Glover, Pasburgh; Miss Alice, of Vancouver; Miss Jean and Miss Florence May, at home.

The remains were laid to rest at Ocean View Burial Park on August 30th.

The death occurred at Coleman on Tuesday evening of Mrs. Mike Korman, at the age of fifty-three. She is survived by her husband and one daughter, Mrs. Samuel Patterson, of Blaimore, and three sons. Deceased was born in Czechoslovakia, and came to Canada in 1902.

In the province of Quebec a real war on auto accidents is being waged and penalties of imprisonment, cancellation of licenses and stiff fines are being meted out. During one week, in the Montreal district alone, no less than 500 offenders were brought to justice.

B.E.S.L. ANNUAL FIELD DAY

Blaimore, Wed., Sept. 12
(Postponed from July 1st, Dominion Day)

FULL PROGRAMME OF SPORTS, INCLUDING Races, Jumps & Baseball
Commencing at 10 a.m.

A Real Menace

Summer is on the wane. The nights will soon be nippy and chill, and if we have not been careful to stock up on our bank of health with a little surplus of energy during the long sunny days, we may be disgusted to find ourselves with a developing common cold.

So declares the Canadian Red Cross magazine in discussing what it characterizes as a real menace in this country. Coryza is the official name of the common cold, but the name is not very indicative of the nastiness of the disease at first blush. Coryza is a real menace. There is no other affliction that quite so universally causes discomfort or so great a loss of time for workman, business man, and school child.

A lowering of vitality means a slow-down in usefulness or production, and time lost in our busy age is a money loss somewhere, or somehow, to someone. Remembering, however, that a nation's health is a nation's wealth, we'll cease to think in dollars.

The real menace of a cold is its possible bad after-effect on the individual. As it is caused by varieties of bacteria very closely allied to those responsible for the pneumonias, for bronchitis, laryngitis, and possibly catarrh, it often leaves in its wake damages that are permanent.

When we speak of "catching" cold, we speak correctly, it by "catching" we mean getting it from the other fellow. About ninety per cent. of our colds come from him.

Very rarely one may develop his own cold, for these germs probably are ever-present in the nose and throat and will multiply and thrive should the vitality of the host be sufficiently lowered to furnish a good culture ground for their growth.

This may be effectively accomplished by avoiding fresh air and sunshine, by loss of sleep, by over-fatigue, or by living in over-heated rooms. Insufficient, improper, or excessive food or clothing assists greatly.

But for the vast majority of our colds, we may blame close contact with our neighbor who coughs, sneezes, and spits, and who uses his handkerchief to saturation and then greets us with a friendly handshake.

Ignorance of sanitary laws excuses no one. Ignorance or disregard of the laws of health eventually spares no one. The person with a bad cold should be regarded as having a dangerous communicable disease, and we should know enough, and our children should be taught, to avoid him. Even among people who realize this, knowledge generally outstrips practice, and on and on goes the cold.

The trouble is that the vast majority of people do not regard the common cold seriously enough. If they, or their dear ones, contract tuberculosis, or are stricken down with pneumonia, they are seriously alarmed, but they overlook the fact that the common cold may be but the forerunner of these and other dread diseases. "Oh, it's only a cold," they indifferently say with a shrug of the shoulders, ignorant or careless of the fact that the cold will quickly seize upon the weakest spot in the human body, whether it be the throat, the nose, the lungs, the heart, the kidneys, or elsewhere, and when at last realization comes that there is something seriously wrong it frequently is everlasting too late.

"It is the little things in life that are causing all the strife," is an old, old saying. It is also what we ignorantly regard as the little things that are responsible for most of the ills from which mankind suffers. Make no mistake about it, the common cold is no little thing although we may look upon it as such. Get after it the moment its first symptoms make their appearance. Better still, exercise all those precautions necessary to prevent taking a cold in the first instance.

Finally, if you can't or won't dodge the common cold, then at least don't make it necessary for your neighbor to dodge yours.

Rust Resistant Wheat

Within Three Years New Variety Should Be Available Which Will Grade As High As The Best

Within three years Western Canada should have a rust-resistant wheat which will grade as high as the varieties now being grown, according to L. H. Newman, Dominion cerealist, who is spending a few weeks in the West, inspecting the work of the Dominion Rust Research Laboratory at the Manitoba Agricultural College and the various Dominion experimental farms in the West. He will also visit farms where rust-resistant grains are being produced for experimental purposes.

Must Be Inspected

Private Planes Must Be Tested For Air Worthiness

Hereafter privately owned aircraft in Canada will be subject to the same inspection for air worthiness as commercial planes. Announcement of an order-in-council to this effect was made. The increase in the number of private aircraft and their presence on public aerodromes have rendered the inspections of all machines advisable. It is stated, however, only commercial planes have been subject to tests for fitness for the air.

Regina Population Increases

A directory census of Regina, capital of Saskatchewan, shows a population of 55,000, an increase of 4,000 in twelve months. A similar census shows the population of Saskatchewan to have increased 5,000 during the past year. It is now placed at 45,000.

Youthful Charms Enhanced By Cuticura

Snap and Ointment. Regular use of the Soap, assisted by the Ointment as needed, will keep the complexion fresh, clear and youthful and the hair live and healthy. Cuticura Talcum is fragrant, cooling and refreshing, an ideal toilet powder.

Small Box, 10¢. Large Box, 25¢. Cuticura Shaving Soap 25¢.

New Phone Service

Inauguration Of All-Canadian Service Between Winnipeg and Montreal

Inaugurating the all-Canadian telephone service between Winnipeg, Toronto and Montreal, via Fort William and Port William, officials of the Bell Telephone Co., the Canadian Pacific Railway and the Manitoba Government spoke to one another across 1,000 miles of copper wire recently. The new line between Winnipeg and Montreal has nine repeated amplifying stations. Its total weight is 350 tons.

A TIRED-OUT FEELING

Is a Sure Sign That the Blood Is Thin and Watery

"I am glad to have an opportunity of testifying to the benefits I derived from the use of Dr. Williams' Pink Pills," writes Mrs. Lawrence Kennedy, St. Joseph, N.B. She further says: "Some seven years ago I was working as a stenographer, and became badly run-down. I always had a tired-out feeling, had no appetite and suffered terribly from backache. Almost every month I had to remain from the office for a day or two. I was advised to try Dr. Williams' Pink Pills, and I have reason to be glad that I followed this advice. Before I had been taking the pills very long I began to feel much better. Continuing their use my strength came back, I regained my appetite and the terrible backache from which I had suffered disappeared. I have been married some years now and have two fine healthy children, a girl and a boy, and am in the best of health. At this I owe to Dr. Williams' famous Pink Pills, and I trust that these few lines may help some other weak, run-down people who will give this blood-building tonic a trial. It will find through its use new health and strength. You can get the pills from any dealer in medicine, or by mail from the nearest box from The Dr. Williams' Medicine Co., Brockville, Ont."

Demand For Canadian Wheat

Believe That Demand From Overseas Will Continue To Increase

Speaking at Shaunavon, Saskatchewan, the other day, A. F. Sproule, director of the Saskatchewan Wheat Pool expressed the belief that the Orient's demands for Canadian wheat, which last year were greater than those of any three previous years, would continue to increase. He mentioned incidentally that the Saskatchewan Wheat Pool now has 100 country elevators and terminal elevators of 26,000,000 bushels capacity, while it is also building another elevator of 6,000,000 capacity.

Nights Of Agony come in the trail of asthma. The victim cannot lie down, and sleep is driven from his brain. What grateful relief is the immediate effect of Dr. J. D. Kneeling's Asthma Remedy. It banishes the frightful convulsions, calms the passions, and enables the afflicted one to again sleep as soundly and restfully as a child. Insist on the genuine at your nearby druggist.

Dog Fishing

New Industry Is Getting Under Way In British Columbia

The vicious dog fish of the Pacific Coast has at length found his niche in the scheme of economic usefulness, judging by a new industry getting under way in British Columbia. Dog fish oil is the base of a preparation for keeping away mosquitoes, black flies and other insect pests which molest man and beast alike. Several barrels a day of dog fish oil are being used in the manufacture of the preparation.

Miller's Worm Powders prove their value. They do not cause any violent disturbances in the stomach, any pain or griping, but do their work quietly and painlessly, so that the destruction of the worms is imperceptible. Yet they are thorough, and from the first dose there is improvement in the condition of the sufferer and a cessation of manifestations of internal trouble.

To Reconstruct Rolling Mills

Manitoba Rolling Mills To Operate Plant In Medicine Hat

The Medicine Hat City Council has received word from the Manitoba Rolling Mills Company, Winnipeg, that plans are in preparation for the reconstruction of the rolling mills in Medicine Hat, entailing the installation of an open hearth furnace and that the company is considering the use of electricity for the operation of the plant in preference to steam.

Parks Attract Foreign Tourists

Under the policy of development and publicity being carried out by the Dominion Government the national parks are not only receiving a wider service each year to Canadians themselves, but they are adding to the knowledge of Canada abroad and attracting to the Dominion thousands of visitors from other countries in every part of the globe.

The Family Rolling Stock

Resident Of Vancouver Makes A Most Interesting Discovery

Even the small family in moderate circumstances of today carries an amazing amount of rolling stock, compared with the family of a generation ago. J. Butterfield, a writer of The Vancouver Province, makes the astonishing discovery that in one modern family there exists under one management one automobile, two bicycles, one express wagon, four roller skates, two scooters, a kiddie car and a baby carriage. Then there is the lawn mower, retained exclusively for one member of the family. Forty years ago a similar household contained two items of rolling stock, a baby carriage and a collection of hoops. "Is there a hoop in all Vancouver now?" asks Mr. Butterfield. Regina Leader.

Recipes For This Week

(By Betty Barry)

SCRAMBLED EGGS

- 1 egg.
- 1/4 cup milk.
- 1/4 teaspoon salt.
- 1/4 teaspoon butter.

Mix slightly beaten egg with milk and seasonings. Melt butter, pour in egg mixture and cook over a low fire. Use asbestos mat. If the fire is too hot the liquid will separate. Keep stirring with a spoon until mixture is thickened. Remove before it becomes solid and serve at once.

HOME-MADE CAKE FLOUR

To use ordinary flour in a cake recipe, from each cup of sifted flour remove 2 tablespoons of flour and replace with 2 tablespoons of cornstarch; sift twice.

STEAMED CHEESE SOUFFLE

- 2 tablespoons butter.
- 3 tablespoons flour.
- 1/2 cup milk.
- 1/2 teaspoon salt.
- 1 egg yolk.
- 1 egg white.
- 1/2 cup grated cheese.
- 2 egg yolks.
- 2 egg whites.

Make cream sauce of first five ingredients. Add cheese, remove from fire, add yolks, cut and fold in the whites beaten stiff and dry. Put into the well-buttered top of a double boiler, cover and cook at a low temperature until firm.

A Power Of Its Own.—Dr. Thomas' Electric Oil has a subtle power of its own. All who have used it know this and keep it by them as the most valuable liniment available. Its uses are innumerable and for many years it has been prized as the leading liniment for man and beast.

An Important Industry

The pulp and paper industry is the most important manufacturing industry in Canada; heading the lists in 1929 for gross and net value of manufactured products as well as for distribution of wages and salaries. In total capital invested the industry is second only to electric light and power plants and in total number of employees it is second only to saw-mills.

Minard's Liniment cleanses cuts, etc.

Condensed Milk Production Within recent years there has been a large increase in the production of condensed milk. The first milk condensing plant was established at Truro, Nova Scotia, in 1883, and there are now in Canada 26 plants for the manufacture of condensed and evaporated milk and milk powder.

Antiseptic

If you have a cut apply Minard's Liniment immediately. Prevents poisoning. Cleanses, heals.

Experiment in Immigration

Farmers Of Western Canada Can Assist By Providing Winter Work For British Miners

An experiment in colonization on a scale never before attempted is now in progress in Canada. Ten thousand men from the mining districts of England, driven almost to desperation by an attempt to maintain themselves and their families upon the dole, have come to Canada to help with the harvest and to start life anew if the opportunity to work after the harvest is in, is afforded them. It is an experiment in which the British and Canadian Governments have co-operated and in which the railway companies and steamship lines are also assisting. And while the need for harvest help has provided the primary reason for making the attempt, the real purpose in view is to settle, once and for all, that much-discussed problem of whether or not the British-born man is any longer a desirable settler for the west.

No one can estimate how far-reaching may be the effect of the success or failure of this experiment. Failure may retard the course of British immigration to Canada for years. Failure may further the belief preached in many quarters in the Old Land, that Canada does not want the British-born. Failure may produce a general reaction which will injure Canadian prestige and Canadian credit. Success, on the other hand, will effectively silence the criticism of Canada's colonization policy. Success will give new hope and fresh endeavor to thousands of Britishers who unquestionably are desirable citizens for Canada but who have been holding back because they have heard that they are not wanted here, or because they do not believe there exists in Canada the opportunities which are advertised. Success will enhance Canadian prestige in Great Britain and improve Canadian credit.

Speaking in Winnipeg early in August, Mr. Ramsay MacDonald, former Premier of Great Britain, pleaded for a warm welcome for these men. Such a welcome would, he said, prove wholesome for the Canadians as well as for the immigrants. He outlined in his protestations that they are not discriminating against the British-born immigrant. These 10,000 harvesters have now arrived. Their welcome has been a warm one. The provincial and federal governments, the railway and civic authorities have co-operated in making them feel at home. Work was found for all of them as quickly as they reached Winnipeg, and all of them are now drawing wages for the first time in years.

But to welcome them is not sufficient. The harvest cannot continue when winter sets in. Either work has to be found for these 10,000 men during the winter months or they must be sent back to England to spend stories of Canadian ingratitude and the lack of opportunity in this country. All of these men are willing and able to work. They will take any job that will net them sufficient to keep alive during the winter months. In the spring it will be easy to place them on the farms or in other forms of employment. But the winter months will tell the story of success or failure.

In providing work for these men during the winter months the farmers of Western Canada can assist more than any other agency. For the expenditure of a very few dollars during the winter months the farmer will be enabled to employ one or more of these men. It is true many of them will be unskilled. But the wage will be that of unskilled labor and by the time spring rolls around the man will probably have learned enough to prove of considerable value to his employer in the plowing and seeding of the fields.

Such a system does not in the least smack of charity. It is sound business practice. For the investment of a few dollars per month the farmer will have help during the winter and, with the coming of spring he will not have to face the great problem of seeking in a highly competitive market for labor. That which he will pay out during the winter months

will be saved by reason of the fact that it will not be necessary for him, in the spring, to engage new help at high wages.

The governments and the railroad companies are spending tens of thousands of dollars to bring this experiment to a successful issue. It is to be hoped that the farmers and other employers of labor will also lend their aid in an issue which is distinctly national in all of its characteristics.

French Text Books

New Series Approved For Use In Saskatchewan Schools

An order-in-council has been passed approving the adoption of a series of French text-books for use in Saskatchewan schools. The series includes five readers and three language instruction text-books which have been under consideration by the department of education and are now favorably reported upon. All the text-books were submitted to the educational council of Saskatchewan for discussion and report in accordance with the provisions of the Saskatchewan school act.

Each of the series adopted is published by the Librairie Armand Colin, of Paris, France. The series was selected out of a number examined by the department of education.

Internally and Externally It Is Good.—The crowning product of Dr. Thomas' Electric Oil is that it can be used internally for many complaints as well as externally. For sore throat, croup, whooping cough, pains in the chest, colds and many kindred ailments it has qualities that are unsurpassed. A bottle of it costs little and there is no loss in always having it at hand.

The Tonic Of Trade

Reason Why Advertising Is Most Effective In Newspapers

When William H. Rankin, advertising expert, certified before the International Advertising Association to the supremacy of newspapers as medium for trade news, he simply corroborated what business experience confirms.

The reason why advertising is most effective in newspapers is because good advertising is always news, and news is expected in newspapers. —Los Angeles Examiner.

Veterinaries Use Minard's Liniment.

Banff An All-Year Round Resort

Banff, Alberta, is a mecca of holiday seekers in both summer and winter. During the summer months visitors may enjoy practically every outdoor recreation. Each winter a carnival is held which is attracting an increasing number of visitors annually, and it is predicted that Banff will soon be a world-famous winter resort.

Frank—"Charlie boasts that no living man could forge his name successfully to a cheque and get it cashed. Had he such a very peculiar signature?" George—"No; but he hasn't any money in the bank."

SUMMER COMPLAINT

Nearly Lost Her Little Girl

Mrs. Theodore Bivett, Anthony, Ont., writes:—"Last Fall I nearly lost my little girl as she was suffering terribly from summer complaint. She became very thin and weak; had no appetite, and could hardly walk across the room without falling down. A last year's mother advised me to get a bottle of

and after she had taken a few doses she was all right. I also found it a grand remedy for cramps, and would not be without a bottle of it in the house for anything."

Has been on the market for over 50 years; put up only by The T. Milburn Co., Limited, Toronto, Ont.

MANUFACTURE OF ARMS UNDER LEAGUE CONTROL

Geneva.—Russia has refused to collaborate with present efforts of the League of Nations to obtain control of the manufacture of arms.

Maxim Litvinov, Soviet vice-commissioner for foreign affairs, in telegraphing this decision to Sir Eric Drummond, secretary of the league, pointed out his government's contention that the league had done nothing toward solution of the problem of real disarmament.

He insisted that urgent steps should be taken to obtain definite results and avoid the risk of future wars. An attempt to supervise the production of armaments is calculated merely to hinder public opinion of holding forth hopes of real disarmament, he asserted.

Meanwhile, Canada and the United States are co-operating in an effort to bring about the widest kind of publicity concerning manufacturing of armaments. Their representatives, Ambassador Hugh Wilson for the United States, and Dr. W. A. Riddell, for Canada, voiced disapproval of a draft project reported to the commission which is trying to frame a convention for the control and manufacture of arms, on the ground that it did not go far enough.

Messrs. Riddell and Wilson favored giving the same publicity to arms manufactured by governments as to arms made in private factories. Dr. Riddell contended that countries depending largely on private manufacture should not be expected to furnish statistics if countries depending on governmental manufacture were permitted to withhold such figures.

The draft provision with reservations attached will be sent to the League of Nations council, which with the league assembly will be empowered whether, taking into account the difference of opinion in regard to the project, it would be wise to convoke an international conference for its discussion.

In French circles it is categorically denied that the provisional naval limitation agreement between France and Great Britain contains any secret clauses. Both British and French spokesmen deny reports that the agreement provides for associated French and British fleets. Replies from the United States, Italy and Japan are awaited before France and Great Britain publish the text of the agreement which is described here as an effort to achieve something possible and practicable by cutting down the size of the underlying idea of the Washington naval conference, the limitation of powerful and offensive naval fighting machines.

The British explain that the agreement was placed before the other naval powers in the hope it would be accepted as a basis for discussion by the league preparatory to disarmament commission. The date of the commission's next meeting depends on the result of these negotiations.

Notes in Berlin

Berlin.—A group of communist demonstrators, protesting against the proposed construction of a new German battleship, attacked police guards here and in the capital. Three persons were wounded seriously and a score were hurt in the rioting. Police arrested 20 after the disturbance.

Criticism Is Resented

Ottawa.—Lord Lovat's Winnipeg comment on Canada's immigration policy has caused much indignation among the officials of the Department of Immigration and Colonization. These officials are very sensitive on this question as there has been much criticism of their attitude toward British immigration.

Will Continue Search

Bergen, Norway.—The Russian ice breaker Krasin, searching for explorers and rescuers lost in the fatal Italia expedition, has proceeded to King's Bay where the Russian aviator Chukhovskiy joined the vessel. The ice breaker will continue to Franz Josef Land, where a base will be established.

Building New Town

The Pas, Man.—Surveying at the Gold Lake township has been completed. The new town has not been officially named but it will probably be known as Gold Lake. It is surrounded by rich mineral deposits.

Farmers Take To Flying

A farmer living a few miles north of Moose Jaw has purchased a Moth aeroplane, and it is understood that several others are about to follow his example.

Chinese Facing Starvation

Crops In Many Districts Have Been Ruined

Shanghai, China.—The population of 1,500,000 in a district 30 miles wide and 100 miles long on the border of South Chihli, and Northwest Shantung, is facing death from starvation, said Karl Baker, secretary of the New York-China famine fund committee on his return from a visit to the stricken area.

There has been sharp differences of opinion, both in China and the United States, regarding the necessity of relief measures.

Mr. Baker said he is convinced that relief must be sent at once. He stated that 150,000 persons were in an exhausted state of malnutrition and apparently doomed to death and that 30,000 were slowly starving.

Drought and grasshoppers have ruined the crops in the famine district, said Mr. Baker. He added that the grasshoppers now form part of the diet of thousands of the stricken people. One village, he said, was eating dried grasshoppers on a wholesale scale, the insects being the only food of many houses which he visited.

Declares Navy Pact

Letter a Forgery

Foreign Office Says Document Is Falsely False

London.—"We have now seen a copy of the letter which purports to have been written by Sir Austen Chamberlain, secretary of state for foreign affairs, to Aristide Briand, French foreign minister, concerning the alleged terms of an Anglo-French naval agreement, and we have no hesitation in declaring that the letter must obviously be a forgery. No comment as suggested has ever passed from Sir Austen to M. Briand."

This statement was issued by the foreign office to the Canadian Press. The document, a summary of which was published widely in the United States and Canada and occasioned a great sensation, has now been received in London and is stated to be a most patent and palpable forgery.

It is understood that the British government has called instructing the British embassy at Washington to deny categorically the authenticity of the document.

Little Damage From Rust

Rust Menace In Saskatchewan Did Not Materialize

Moose Jaw.—Although conditions in Saskatchewan were propitious for a "rust" infection during the month of July, the rust menace in Saskatchewan has not materialized. This was the statement made here by M. P. Tullis, Field Crops Commissioner for Saskatchewan, following his return to this city from a 1,000 mile tour of inspection throughout the province.

"While the heavy crop stands and the succulence of the leaves and stems of the grain, together with the unusual amount of moisture in the atmosphere in the month of July, indicated the possibility of heavy rust infection, the rust menace has been practically negligible," said Mr. Tullis.

Canada May Be Honored

Likely To Have Representative In Court Of International Justice

Regina.—Canada may have representation on the bench of the permanent Court of International Justice, in the person of either the Right Hon. Mr. Justice Duff, or of Eugene Lafleur, K.C., of Montreal, according to an announcement made to the Saskatchewan Bar Association by the Hon. W. W. Rowell, K.C., of Toronto. A vacancy has occurred on the bench owing to the resignation of John Bassett Moore, a renowned United States-Jurist, and the names of the two Canadians were submitted for election. This will occur in about a month's time.

Will Continue Vaccination

Geneva.—The smallpox vaccination commission of the League of Nations has voted that despite the development of occasional cases of sleeping sickness from vaccination there was no reason for discontinuing the practice which it regards as the most powerful weapon against smallpox known to medical science.

Commissioner Eddie Dead

Winnipeg.—Commissioner William Eddie, of the Salvation Army, is dead at Balmoral, Scotland, according to word received here. For the past two years he had been in charge of the work in Western Canada.

Predicts Rapid Mail Service

Airplanes Will Aid Communication Between England and Canada

Montreal.—A rapid mail service by airship between Great Britain and Canada was forecast by W. G. Williams, parliamentary secretary to the British Board of Trade. There were two great airships, now under construction in Great Britain, one by the government, the other by Commander Burney, and the latter was likely to have its trials toward the end of the year.

"I should be surprised," Mr. Williams said, "if we do not see the development of rapid mail communications between England and Canada through airships."

Mr. Williams was speaking at the first conference of the delegates of the Empire Parliamentary Association now visiting Canada. The conference was with members of the Montreal Board of Trade, the subject being empire transportation.

MORAL VALUE OF THE PEACE PACT IS NOW STRESSED

Paris.—Lord Cusendun, who signed the peace pact in behalf of Great Britain, Northern Ireland, and India, said that it was a great and historic event, but he cautioned against the inference that the activities of Secretary Kellogg, of the United States, in elaborating the treaty meant that the United States would depart from its policy of aloofness toward European complications.

"So far as this pact is concerned," he said, "it carries with it no implication that the American people must concern themselves with European matters." The British minister emphasized the moral value of the pact, recalling that Napoleon once said that the great factor in war was the moral factor.

"So it is in peace," Lord Cusendun said, he added. "No one imagines that signing this treaty will immediately and finally banish war from the face of the earth. That would be a mistake. Possibly there will still be small wars somewhere on the earth, but do not let the cynics be encouraged because the moral value of the pact remains and that is the real value of this treaty."

Lord Cusendun said that personally he divided the credit for the negotiation of the treaty between Foreign Minister Briand and Secretary of State Kellogg, but he recalled Sir Austen Chamberlain's activities of the last few years in favor of peace, and claimed for him as much credit as for any one else in the crusade against war.

Deaths Of Charlie's Chaplin's Mother
Hollywood, Cal.—Mrs. Hannah Chaplin, mother of Charlie Chaplin, of motion picture fame, died at a hospital in Glendale. Disorders that resulted from exposure during air raids in London during the world war were said to have caused her death.

Epidemic At Athens

Athens.—Eighty per cent. of the population of Athens and Piræus have been affected by the epidemic of dengue, it is now estimated. The fever was spreading in the provinces.

Prince George Crosses Canada

H.R.H. Prince George, K.G., fourth son of the King, photographed aboard the Canadian Pacific liner "Empress of Australia" as he arrived at Quebec. It is anticipated that this unconventional portrait will earn for its subject a reputation of his brother's unofficial title—"The Smiling Prince."

DISTINGUISHED VISITOR

Sir Campbell Stuart, of London, Eng., who is in Canada to report on the merger of the Eastern Cable Co. and the Marconi Wireless Co. to the Canadian Government. It is claimed that the merger will save a million dollars to taxpayers of Canada and at the same time free the government of any further liabilities, as well as bringing the world to the doors of the people of Western Canada.

Aftermath Of B.C. Tragedy

Debris Found Near Seattle Thought To Be Part Of Wreck Of Missing Plane

Seattle.—Pieces of aeroplane upholstery and several tourist postcards, supposedly from the British Overseas Airways plane which disappeared Saturday morning with seven persons, were picked up on the beach several miles southwest of here.

Lt.-Commander L. L. Bennett, directing the coastguard search for the missing plane, declared he was satisfied that the fragments of upholstery were from the giant aeroplane. He ordered the search renewed in Port Discovery, where the articles were picked up by George A. Smith, fire warden, and Dr. E. E. Gleason.

With the pieces of upholstery were several fragments of felt used to insulate the body of the plane from the engine.

New Seed Cleaning Station

Announcement Made That Plant Will Be Established At Saskatoon

Saskatoon.—An announcement that the government will establish a seed cleaning station here, similar to the one operating at Moose Jaw, was made by Dr. J. H. Grisdale, deputy minister of agriculture, who is on an inspection trip through the West. Several other smaller stations would be established in the province, he said. Dr. Grisdale remarked on the evident prosperity throughout the Dominion, and spoke particularly of progress in the Peace River country. He said he was amazed at the results obtained by the use of phosphates in the treatment of grain at the Scott experimental farm.

Announces Initial Payment

Winnipeg, Man.—The Central Board of the Canadian Wheat Pool, in an official statement issued by E. B. Ramsay, secretary and manager, announces that the initial payment for the 1928-29 crop will be 85 cents a bushel, basis No. 1 Northern at Port William.

Air Mail Service

First Air Mail In Western Canada To Operate From The Pas

Saskatoon.—The first air mail service west of Winnipeg will be established from The Pas, to Cold Lake Friday.

W. Rippington, of the Saskatoon post office, will represent District Superintendent J. H. Hunter at the inauguration of the weekly mail service, which W. A. Rae, barrister at Cold Lake, terms one of the greatest boons ever presented to the pioneering prospectors at Cold Lake.

Formerly mail was taken to and from Cold Lake at infrequent intervals, greatly handicapping the work of the mine recording office established there last April.

The new post office will be named Kinsinger, the Cree word for "cold." Under the new system mail will reach Cold Lake every Friday, returning the same day.

Peter C. Deurie, a pioneer merchant at Cold Lake, has been appointed postmaster.

Completes Arctic Patrol

Canadian Government Ship Is On Homeward Journey

Ottawa.—The Boethic, the expeditionary ship of the Canadian government, has completed its annual patrol of Canada's Arctic archipelago and is now on its southern journey home to Sydney, N.S., which it is expected will be reached early in September.

This information was conveyed in wireless messages from the ship to the Northwest Territories and Yukon branch of the department of the interior. George P. Mackenzie, officer in charge of the expedition, reported that there had been an epidemic last winter among the natives living around Frohisher Bay and that there had been 25 deaths, mostly children. With this exception, the health of the natives in Baffin Island has been excellent.

INDUSTRIAL GAINS ARE MADE BY GREAT BRITAIN

Montreal.—Herbert G. Williams, M.P., parliamentary secretary to the British Board of Trade, addressing the Canadian Club here removed some misconceptions about the old land.

"Some people think," he said, "that Great Britain has passed the peak and begun to decline. I am satisfied that this does not represent the truth."

As an instance he pointed out that in export of electrical machinery Great Britain before the war occupied third position with the United States and Germany first. Now Great Britain leads both the United States and Germany.

The number of people at work in Great Britain now was three quarters of a million greater than before the war, or a total expansion greater than that of Canada.

"We have made a total greater progress in the last four years than you have," Mr. Williams said. It was true that Great Britain also had a greater volume of unemployment. That, too, was three quarters of a million greater than in 1914. "We relieve the burden," Mr. Williams proceeded, "with a system of unemployment insurance which to my profound regret some newspapers describe as a joke. It is no more a form of charity than when you businessmen pay a fire insurance premium and the company pays you insurance if you have a fire."

Mr. Williams urged further development of trade between Great Britain and Canada. Trade between Canada and the United States was dollar for dollar, while Great Britain bought from Canada to the amount of two and one half dollars for every dollar's worth she sold to Canada.

"We would like to get a little of that American trade," he added.

Mr. Williams compared the results of the census of production taken in Great Britain and Canada in 1924, and said that 45 per cent. of the total population of Great Britain worked for a living while 36 per cent. worked for a living in Canada. In other words nine per cent. more people worked for a living in Great Britain than in Canada, with 50 per cent. more women working for a living.

Mr. Williams pointed out how Great Britain had been able to retain her predominance at sea despite efforts made by other countries to capture it. One attempt to capture it had been made by the people of the United States. "As far as I can see," he said, "they regret it."

HOLD DIVERGENT OPINIONS ON BANK MERGERS

Winnipeg.—Divergent views on bank mergers were expressed by the presidents of two of the largest banks in Canada when they were interviewed here.

Sir Herbert Holt, president of the Royal Bank of Canada, declared it was in the public interest to have larger rather than smaller banks, while Sir Charles Gordon, who is making his first trip west as president of the Bank of Montreal, intimated that he was not in favor of mergers although he would decline to let any statement be quoted.

"In these days," said Sir Herbert, "when large amounts of money are needed we have to have strong banks. That fact has been recognized in England and in the United States. A strong bank serves the public better than a small bank."

Sir Charles said the following statement would sufficiently well augur his position. "I don't know of anything whatsoever that would indicate further mergers."

Referring to Western crop conditions, Sir Herbert said the banks were prepared to advance all money that is necessary for the making of the crops. "It is impossible to say, however, how much money will be needed," he added.

Both men were in the city accompanying E. W. Beatty, K.C., president of the Canadian Pacific Railway company, of which Sir Herbert is a director.

Canadian Bar Association

New Officers Are Elected At Meeting Held In Regina

Regina, Sask.—With more than 50 members in attendance, the second annual conference of the governing body of the legal profession in Canada, was held in Regina.

New officers were elected when Sir James Aikins, K.C., Winnipeg, was unanimously reappointed as president, the other officers being: G. F. Montgomerie, K.C., Montreal; A. L. Smith, K.C., Calgary, vice-presidents; With H. J. Sims, K.C., Kitchener, Ont., being reappointed as secretary.

The members of the association assembled, albeit at attention when the resolution committee brought in a clause going on record as expressing unswerving loyalty to the King. Then, as Gordon Forsie read a clause of the committee, expressing regret at the death of ten members of the association during the past year, the meeting stood for a moment in silence, heads bowed. The ten whose deaths were so mourned were: Albert F. Bailey, Linerick; W. Eaten Lloyd, Kelvington; Gordon S. Haig, Moose Jaw; Alexander N. Grant, Estherville; Peter N. McLaren, of Dodsland; James Joseph McNeice, Foam Lake; John Leslie Bryant, Moose Jaw; G. F. Rowland, Earl Grey; and W. D. Corrie, Rosthern.

To Aid Prisoners

Toronto Chief Of Police Interested In Movement To Assist Ex-Convicts

Toronto.—If given the co-operation of churches and welfare organizations, General D. C. Draper, chief of police, said he would prevail upon the federal government to assist in a movement to help ex-convicts to establish themselves in society.

Declaring that he had personally met twenty ex-convicts who had told him they were being hindered instead of helped in their endeavor to live down their past and start life again, General Draper said he advocated Dominion-wide organization of committees representative of churches and welfare associations to assist men leaving penitentiaries to obtain work and aid them to go straight.

Well Known Film Injured

Saskatoon.—The Autman, well-known film, who boasts the longest moustache in Christendom, and who is known all over the Dominion, particularly in newspaper offices, was seriously injured when hit by a car here. He is in hospital suffering from a fractured skull and broken collarbone.

Cheque For Doctor Doolittle

Toronto.—Doctor P. E. Doolittle, veteran motorist, was given a \$5,000 cheque by the Canadian Automotive Industries in appreciation of what he has done to make motoring in Canada more available.

W. J. BARTLETT, PUBLISHER

Blairmore, Alta., Thurs., Sept. 6, 1928

A GOOD SCHEME

Stately Elks' lodge has made a proposition to the town for the building of a skating rink there. The estimated cost of the proposed rink is \$5000. The Elks propose to raise \$3000 by subscription, and vest title to the property in the town, if the town will issue debentures for \$5000, repayable in twenty years at interest not to exceed 6 per cent per annum. If this is done, the Elks' lodge will pay the town a yearly rental equal to the debenture payment and interest, also insurance and depreciation, and in this way retire the debentures without an increase in the town taxes on that account. The town council has passed the first and second readings of the debenture by-law, and sent it to the Utilities Commission for approval. If it is sanctioned by the commission, a vote of the burgesses will be taken, and if favorable, the by-law will be passed.

THE PASS FIFTEEN YEARS AGO

(The Blairmore Enterprise, 1913). July 18.—The itinerary of the touring International Geological Congress includes Blairmore and Frank as stopping points. This is a result of the plans suggested by the Associated Boards of Trade of Alberta and British Columbia.

Anglican Sunday schools of Southern Alberta will tour to Crows' Nest by special train on Tuesday next for a mass picnic.

Lynn H. Sinclair, a brother of D. A. Sinclair, of Blairmore, died at Frank Sanatorium hotel on Sunday night at the age of thirty years. The remains were laid to rest at Blairmore on Tuesday. An inquest into the man's death was held, with the following jury impaneled: W. I. Huston, foreman; C. J. Tompkins, A. L. Blais, Gerald Gardner, Robert Barr and Anson C. Beach, who returned a verdict to the effect that deceased came to his death at his own hand by shooting during a fit of despondency.

Oddfellows of Southern Alberta will gather in Blairmore in annual picnic on Thursday next. A special train will be run from Lethbridge, bringing at least five hundred from points east of Pincher Creek.

Orangemen of Southern Alberta gathered in Blairmore on Saturday last. About four hundred joined in a street parade, headed by the Lethbridge life and drum band. Bellevue brass band was also in attendance. The procession was marshaled by F. W. Doubt on a "yellow" horse. The ladies of the Presbyterian Women's Guild served dinner at the Rose building during the day and their tables were well patronized. The ladies of the Baptist church operated two lunch tents on the sports grounds. Local store windows were very nicely decorated and were much admired by visitors.

The new Fairmont hotel at Maple Leaf will be officially opened on Monday, the 21st.

The fortnightly pay comes into effect at The Pass mines on August the 1th.

Equipment for the law office of Campbell & Gillis arrived last week end, and Mr. Gillis is now settled down to business.

F. M. Pinkney is moving a residence from Frank to West Blairmore. It is being moved in sections.

For next Thursday's programme,

HILLCREST HAPPENINGS

Andrew Paton is sporting a New Advance Nash, also Dr. Ross.

Misses Jessie and Browne Greener left on Saturday night's train to attend normal school at Calgary.

The many friends of Miss Gladys Howcroft will be pleased to learn that the operation she underwent at Vancouver was most successful.

Tony Cassagrande and Joe Funnell are walking about very carefully. Their good ladies have just returned from the coast, after spending a few weeks holidays. It's alright!

Miss Jessie Collinson, daughter of Mr. Robert Creighton, left on Saturday night's train for Edmonton, where she enters the Royal Alexandra hospital as nurse-in-training.

An event of considerable interest took place at Hillcrest on Saturday, September 1st, the occasion being the marriage of William Makin, son of Mr. and Mrs. J. W. Makin to Miss Katie Elck, of the most popular residents of Hillcrest. The ceremony was performed at St. Luke's Anglican church, Blairmore, by the Rev. A. D. Currie. After the ceremony, a reception was held at the residence of the groom's parents, and a most enjoyable evening was spent by all the invited guests, including the following: Mr. and Mrs. J. W. Makin, Mr. and Mrs. Elok, Mr. and Mrs. R. Clarke, Mr. and Mrs. D. Howcroft, Mr. and Mrs. James Price, Mr. and Mrs. John Ironmonger, Mr. and Mrs. A. Watson (Maple Leaf), Mr. and Mrs. John Semanek, Grandma Price, Mr. and Mrs. Dick Makin, Mr. and Mrs. R. Sudworth and Mrs. Holmes (Coleman), Mr. and Mrs. George Porteous, Mrs. Eccleston (Bellevue), Ed. Royle and family (Blairmore), Mr. and Mrs. R. Letcher, Mr. and Mrs. S. Phillips, Mr. and Mrs. J. Maddison, Mr. and Mrs. Burnick and Bill Lewis (Coleman), Katie Burtinick, Cliff and P. Letcher, J. Kostelnick, Arthur Watson, Mrs. McKinnon, Ethel and Edith Price, Mrs. John Price and family (Mountain Park), Mr. and Mrs. Tom Price. Presents to the bride and groom were both costly and numerous, and the young couple entered upon their new life with the best wishes of everyone.

IF PAPERS TOLD THE TRUTH

Editors, too—sometimes they are obliged to battle with a conscience; often they become talented and accomplished liars.

The story goes that the editor of a country newspaper grew tired of being called a liar, and announced that his next issue would tell the truth and nothing but the truth. Following are a few of the items he used:

John Blake, the latest merchant in town, shut up his shop and went out to the ball game on Monday.

John Jones' grocery store is doing rotten business. No wonder—the store is a mess.

Charlie Cleaver dined at his home here Tuesday. Heart failure, the doctor said, but everybody knows that whiskey killed him.

Married—Miss Annette Blair and James Simpson, last Saturday at the parsonage by the Rev. Greer. The bride is a very ordinary girl who doesn't know any more about cooking than a jackrabbit and never helped her mother more than three days in her life. Not a beauty, by any means—when she walks she waddles like a duck. The groom is a modern loaf-er who has lived off his folks all his life and who is not worth shucks. It will be a tough life—Ex.

In a three-game playoff series between Hillcrest and Blairmore played during the week, Blairmore won the Charbonnier Cup, emblematic of the senior baseball championship of the Crows' Nest Pass.

business people of the towns of Blairmore and Coleman have undertaken to enter floats representing various trades and businesses in competition in the big parade.

COWLEY HAPPENINGS

Miss Gladys Baines, of Calgary, was a Cowley visitor for a few days this week.

Mrs. Harry Hannan has returned to Calgary, after spending two months here.

Mr. and Mrs. Grant Smith and James Leigh spent the week end at Glacier Park.

Mr. and Mrs. D. B. McIvor, of Stettler, have arrived for a few days' visit here, renewing old acquaintances.

Word has been received from Calgary that a son is born to Mr. and Mrs. Vivian Sandeman. Many friends will be glad to know that both mother and infant are doing nicely.

School opened here on Tuesday with a large attendance. Mr. Skitchew, of Calgary, has been employed as principal, with Miss Gladys Brown, of Pincher Creek, teaching the junior room.

Dr. and Mrs. Hayt, of Montarg, arrived on Tuesday to attend the funeral of Mr. H. D. McMillan. Mrs. Hayt is a sister of the deceased. Accompanied by many friends of Mr. McMillan, they journeyed with the body to Edmonton, where it will rest.

A number of local folks attended the Bellevue flower show on Labor Day. They marvelled at the exquisite beauty of the flowers and the fine display of vegetables, arts, needle work, cooking, handwork, etc., and pronounced it an altogether fine fair, which was so capably managed by the citizens of the town of Bellevue, and think that they are deserving of considerable praise on so successfully staging the enterprise.

The community was shocked on Sunday morning last, when word was received, saying that Mr. H. D. (Hughie) McMillan had suddenly died at Pincher Creek at an early hour that morning. The body was sent to Edmonton on Tuesday night's train, where it will be laid to rest beside those of his wife and daughter, who preceded him in death a few years ago. Mr. McMillan will be greatly missed, as he had made a wide circle of friends and acquaintances all over the province. His cheerful disposition had always made him very popular wherever he went and, too, he was always known as just a "real good fellow."

ANOTHER GRAFT

A guy landed in town the early part of the week with the usual proposition to land suckers and succeeded in landing a few.

The proposition was for contracts or ads to appear on menu holder, and the price to be collected, by this individual would run into hundreds of dollars, sufficient to cover the printing bills of all the hotels and restaurants in the Crows' Nest Pass for the next four years, and not worth one dollar to any sucker who fell for a ten-spot.

We have been in The Pass for twenty years and may be here for twenty more and never have and never will approach our customers or the public with such a gold-lined proposition.

We have no sympathy for those who fall for such propositions. Past experience in this line should teach them a lesson.

G. K. Sirett, painter and decorator, of Bellevue, has just completed the interior decoration of the local vendor store; also exterior finishings of the building occupied by the F. M. Thompson Co., Ltd., as their Greenhill store.

YEARS AHEAD!

The name "Gutta Percha" has 45 years back of it. And now this name is linked with a new product—the "GP" Gum Cushioned Tire—a tire years ahead in principle and quality. Gum Cushioned Tires are protected within—deep down in the carcass where ordinary tires suffer "internal injuries"—that's where we have placed stubborn barriers of pure gum between the cord layers to cushion the bruising blows of the road. These great new tires should be on YOUR car. Your interests are sincerely served when you visit a "GP" dealer and purchase Gum Cushioned Tires, the logical Tires for economy and dependability.

"Gutta Percha" Tires GUM CUSHIONED

exclusive to "G.P." Tires—a wonderful cushion feature

"GP" Pure Gum Tubes
"Road heat" will NOT destroy the feature of "GP" Pure Gum Tubes. You pay no more for "GP" but you get greater value and real satisfaction.

Buy your Gutta Percha Tires and Tubes from

Filling Station, Batteries and Vulcanizing

Aluminum possesses qualities of lightness, cleanliness and protection against rust and decay which make it incomparable as a container for fine tea. You will never find that flat, stale taste in Red Rose Tea, because it is put up exclusively in damp-proof aluminum packages.

WORLD HAPPENINGS BRIEFLY TOLD

Marshal Emile Favre, Marshal of France, and one of the great French soldiers that the war produced, died in Paris recently.

According to members of the Canadian Olympic team, much content was evidenced over the treatment accorded Canadians at Amsterdam.

What is believed to constitute a record for light aeroplanes, was established by the Winnipeg Flying Club, whose members have made more than 4,000 flights since the club opened on May 28 of this year.

Rear-Admiral Alfred Meyer-Waldeck, who defended Kiao-Chau during the World War, is dead at the age of 64. He was appointed governor of Germany's colony on the Shantung peninsula of China in 1911.

Hon. C. A. Dunning, Minister of Railways, sailed from Quebec for Geneva to attend the League of Nations Assembly. Mr. Dunning is accompanied by Mrs. Dunning and his secretary, Miss Craig.

A \$20,000 prize for the "best and most practicable" plan to make the United States bone dry was offered by W. C. Durant, millionaire automobile manufacturer and stock manipulator, in a cable statement from Europe.

Plans are being made for the erection of a million dollar paper plant in Winnipeg, according to advices received by the Manitoba Industrial Development Board. The Hinde and Dauch Paper Company are said to be considering a suitable site for the factory.

Through the signing at Paris of a multilateral treaty renouncing military force as an instrument of national policy, 15 nations, representing two-thirds of the world's fighting power, have agreed never again to go to war. The rest of the world was invited to take the same pledge.

John Nolan and Robert Copeman, in their canoe "Canadian Friendship," have left Winnipeg via the Red River to continue their journey from Edmonton to the Rio Grande. The canoe trip is 6,000 miles long, and the youths expect to complete their trip in time to return to Canada and spend Christmas in Edmonton.

Shaving Does Not Hurry Growth

Dr. Mildred Trotter has proved to her entire satisfaction that shaving does not increase the rate of growth of the beard. Precise measurements of beard shavings supplied by four students over a period of nine months were used in the test. She also found that hair does not grow continuously, but in short spurts, each of which is followed by a short rest.

Rural Mail Service

Rural mail services in Canada are steadily increasing. A maximum of 3,800 rural routes has now been reached, this representing an increase of about 400 compared with a year ago. The most notable development is in the Western Provinces, more demands coming from there than from other sections of the country.

He took the bend like one possessed.

His brakes refused a sudden test—N.B.—No flowers by request.

Perhaps every man has his price, but in most cases it is very elastic.

Farmers Marketing Tour

Canadian National Railway Tour To Great Britain and Denmark, 1924

(Continued.)

Time still permitted a visit to Holyrood prior to a reception by the Lord Provost, Sir Alexander Stevenson, at the City Chambers. Holyrood, built in the French style, is still used by the Royal Family. It has been the scene of many stirring events. Cromwell stationed some of his troops there before the Battle of Dunbar, in 1650, but his chief interest to us as to most people, was its association with Mary Queen of Scots. In Mary's Audience Chamber we saw the little oratory where she used to pray. The bed, chairs and furniture are those believed to have been used by Charles I. The walls of Queen Mary's bedroom are hung with tapestry. The hangings of the bed are of crimson damask with green silk fringes and tassels, but that this was the bed used by Mary is doubtful. The most interesting of Queen Mary's apartments is, of course, the little Supper Room, where Rizzio, her private secretary, was set upon by conspirators who dragged him through the bedroom and the Audience Chamber to the head of the principal staircase. There they left his body bearing fifty-six wounds.

The Picture Gallery in the Palace of Holyrood contains the portraits of kings "who," says Scott, "it they ever flourished at all, lived before the invention of painting in oil colours."

During a visit to the Quadrangle on the party was photographed as a whole, the first and only time that this had proved possible.

The reception at the City Chambers was necessarily short for we were due to reach Glasgow by six o'clock the same evening, but we shall never forget the cordiality of the welcome we received, or the happy fashion in which the dignity of a cultured city was blended with warmhearted brotherliness. The Lord Provost and the City Councils in their red robes, and the lofty towers and the wonderful pictures depicting the history of the City added to the impression of grandeur.

Owing to the absence of the Lord Provost in London where he was receiving his guests, the following morning we were received by Bailie and Mrs. Hay.

Our earliest scheduled appointment was kept on our first morning in Glasgow when we breakfasted with the officers of the United Co-operative Baking Society at their place where the President, Mr. Alexander Buchanan welcomed us. Our trip through the bakeries was of great interest. In one department we saw the baking of one day's supply of the 400,000 loaves that are baked in one week. In another, wonderful machines, tended by neatly-uniformed girls, obviously angry, were turning out biscuits at an extraordinary rate. Over 40,000 lbs. of biscuits are baked in one week. 35,000 packets of catfish, and 6,500 trays and boards of pastries and shortbreads. Over 100 vans are in daily use. The Society is truly co-operative, the very bakeries having been built by the Society's own maintenance staff. The United Co-operative Baking Society serves 228 co-operative societies and its annual output is worth over \$4,000,000.

The baking plant is the largest in Europe if not in the world. We next visited the Sheddall Works of the Scottish Co-operative Wholesale Society, which represents the co-operative movement in the realm of industry and its application to the purchase, distribution and even manufacture of goods for the benefit of a number of individuals working together in their mutual interest. The Scottish Co-operative Wholesale Society came into existence in 1868 through the federation of retail co-operative societies. Its initial capital was \$5,000, its capital today is \$45,000,000 and its annual sales total \$60,000,000. The Sheddall Works through which we passed were devoted to the manufacture of clothing, furniture, boots and shoes. We also visited the printing works where we saw the latest type of two-colour printing machine which prints in two colours in one operation.

Forty-eight factories are operated by this great Society, and it was especially interesting to us to learn that it possesses 2,140 acres of farm lands. As is well known the Society maintains an office in Winnipeg and elevators in Western Canada and it was our pleasure to meet the Canadian Manager of the Company, Mr. John Fisher, in the Sheddall Dining Room, where we were entertained to a delightful luncheon under the cordial presidency of Mr. R. Stewart, chairman of the Society.

A full day was completed by a meeting with the representatives of the wholesale fruit, provision, grain and flour trades in Glasgow. These were we were treated to the outpouring, business-like talk which we have come to expect when dealing with leading business figures during our tour. This particular session was perhaps the most productive of any that we had attended.

Our next day's programme had been anticipated with more than ordinary interest, for we were to visit the world's leading Clydesdale stud, probably the two most famous anywhere in existence and the wonderful Doonholm herd of Aberdeen-Angus cattle; and in addition, Burns' cottage and the Brig o' Doon. First we went to Craigie Main, Kilmarnock, where Mr. James Kilpatrick, famed not only as a great breeder of Clydesdales but as a host, showed us the finest horses in his stud, surely never were nobler specimens of the Clydesdale breed ever brought together. As one beautiful animal was succeeded by another, we became lost in admiration for the truly aristocratic breeding and the high individual merit shown by the stud. Such horses as "Craigie Leo-

PAYS TRIBUTE TO FALLEN COMRADES

As Britain observed the 14th anniversary of her entry into the great war, some 11,000 British ex-service men paid their tribute to their fallen comrades in a great memorial pilgrimage to the battlefields of France and Flanders. Among the pilgrims was a soldier rejoicing his old comrades was the Prince of Wales. Above, his royal highness is seen at Bethune, walking with the mayor.

Show a Welcome

Incoming Britishers Should Be Given a Welcome By Their Own People

It is an obvious, although a seldom recognized fact, that the non-British residents in Canada are much more prone to assist their fellow-nationals from Europe than the British people are to lend a helping hand to their brothers from the British Isles. When complaints are made that mid-European residents pay no attention to the incoming Britishers, a real effort to overcome this defect, if it is a defect, might make all the difference in the world to the immigration problem. Western Province.

In the Interests Of Peace

In the interests of world peace, Minister of War Painleve, of France, announced that he would ask the cabinet to change the title of his department to the "Ministry of the Army." Painleve's original plan was to propose the establishment of a "Ministry of National Defence," but this could not have been accomplished without the amalgamation of the present war and navy departments.

Dinner—Walter, I've been waiting a half hour for that steak.

Waiter—Yes, sir; I know you have. If anyone were as patient as you, life would be worth living.

A soft answer doesn't always turn our right when you are dealing with a man who is a hard lot.

BRITISH VISITORS TO CANADA

Lord Lovat, under-secretary of state for the Dominions, photographed on board the "Empress of Scotland" en route to Canada with Sir Howard D'Evigle, honorary secretary of the Empire Parliamentary Association, and Col. H. W. Cole, principal of the Empire Marketing Board. From left to right: Sir Howard D'Evigle, Lord Lovat, and Col. Cole.

SUNDAY SCHOOL LESSON

SEPTEMBER 9

PAUL IN ATHENS AND CORINTH

Golden Text: "For I determined not to know anything among you, save Jesus Christ, and Him crucified." 1 Corinthians 2:2.
Lesson: Acts 17:18-31; 1 Corinthians 2:1-11; 1 Timothy 2:3-7.
Devotional Reading: Psalm 119:9-16.

Explanations and Comments

Paul At Athens, verse 1.—After leaving Beroea, Paul went on to Athens, as we learned last week. There he reasoned in the synagogue with the Jews and preached in the marketplace to all who would listen. Athens had a famous university and was the headquarters of the various philosophical schools: among them, Luke mentions the Stoics and Epicureans; certain of whom encountered him and said: "What would this babbler say?" and others of whom said, "He seemeth to be a setter forth of strange gods," because he preached Jesus and the resurrection. Parenthetically Luke observes, "Now all the Athenians and the strangers, adjoining there spent their time in nothing else, but either to tell or to hear some new thing." Thus Luke explains the fact that Paul spent so much time in Athens and asked to tell there what his new teaching was.

Paul addressed a waiting crowd. He referred to an inscription which he had seen on one of their altars—"To an Unknown God"—and said that the one whom they worshipped in ignorance he declared unto them. God who made the world does not need to dwell in temples, nor does He need anything, for He Himself is the source of all life and of all things. He made all nations and peoples, he would have them all seek and find Him, but He is not far from everyone, for in Him each one lives. Being God's children, we ought not to think that our Father is like any image made by man. Their ignorance of God had overlooked in the past, but now He calls them to change their views, for there will be a day when God will judge the world by One whom he has appointed, whom he has raised from the dead.

At the reference to the resurrection some of Paul's hearers mocked; others said that they would hear him again some time; and thus he was dismissed. Among those who believed in him each one lived being God's child. Areopagite, and a woman named Damaris, but the shallow intellectualism and religious superstition of the people of Athens did not offer a promising soil for the Word, and Paul left Athens for Corinth.

Preaching To the Jews At Corinth, verses 4-6.—As usual, Paul addressed himself first to the Jews, and in the synagogue every Sabbath he persuaded, or, as the marginal rendering is, sought to persuade, Jews and Greeks to accept his message concerning the Saviour.

Silas and Timothy, you remember, had remained at Beroea, and when Paul reached Athens he sent for them to "come to him, with all speed" (Acts 18:16). They joined him at Corinth, and on their arrival Paul was able to give more time to preaching. They brought money with them (2 Cor. 11:5; Phil. 4:15) and there was less need for his telling at door-to-door knocking. Accordingly, he "was constrained by the word," the word had him in its grip, he yielded to the urge within him, and proclaimed more zealously than ever that Jesus is the Christ.

Will Sign Treaty Twice

Ireland Has Two Signatures On War Renunciation Document

Ireland, smallest of the nations originally adhering to the war renunciation treaty, will have two signatures on that document.

President Congreve will sign for the Irish Free State, and Lord Cushing, acting head of the British Foreign Office, for Great Britain and Northern Ireland.

Cushen's signature will stand for it driving out of the Empire not signing as individual states. His signature for Northern Ireland will be in behalf of a population of one and a quarter million and his separate signature for the King as Emperor of India, will be a representation of three hundred millions.

A Bid For Advertising

Ten cents straight will be charged for all obligatory notices to all business men who do not advertise while living. Delinquent subscribers will be charged fifteen cents a line for an obligatory notice. Advertisers and cash subscribers will receive as good a send-off as we are capable of writing, without any charge whatsoever. Better send in your advertisements and pay up your subscription; as hog cholera is abroad in the land.—Altona (Kan.) Tribune.

Your Radio Proficiency

Certificates of proficiency in radio telegraphy have been awarded by the department of marine and fisheries to the following: First class—H. Dunn, Powell River, B.C.; W. J. Cavanagh, Vancouver, B.C.; R. G. Doherty, Vancouver, B.C.; Amateur, D. L. Que, Alliance, Alta.; W. F. Roberts, Hanna, Alta.; F. J. Shaw, Vancouver, B.C.; W. Houston, Tyvan, Sask.; J. S. Houston, Tyvan, Sask.

Things are seldom what they seem when it seems as if they couldn't be worse.

Making French Real

Suggest Quebec Scholarships For High School Boys

After waiting for a generation with American boys to whom the French language was about as vital as Sanskrit, Mr. Horace D. Taft, principal of the famous private school at Watertown, N.Y., has put into effect a new idea that promises to change the whole situation. It began with a sudden realization of the fact that just north of him is a French-speaking and French-living Canadian province. Mr. Taft thereupon wrote to the superintendent of public instruction in Quebec and asked if some of his boys could be placed for the summer in all French families. And now the boys are in Quebec learning French.

Of course, the parents of these boys had the money to pay for the experiment, and finding the money is always the rub. But would it be out of the question for the provincial government to offer a half-dozen Quebec scholarships each summer to Alberta high school boys and girls who had demonstrated their worth in class? French is an important curriculum subject, a great living language, and by law on a party with English in federal matters. What is the department of education doing to make it vital to English-speaking scholars in Alberta?—Edmonton Journal.

Local and General Items

PROCLAMATION

I hereby declare Wednesday, September 12th, Sports Day, a Civic Holiday.

J. H. FARMER,
Mayor, Town of Blaimore.

Mr. H. P. Thorson, former member of the Blaimore teaching staff, is now teaching at Cardston.

Dave Kemp, junior, and Jollett Houbreys left the early part of the week on a visit to Calgary and Banff.

Miss Helen Agnes Royle left on Monday for Pincher Creek, for educational and musical purposes.

"Doc" Honey has invested in a new Ford rumble-roadster, through the Coleman garage.

For First-Class Work and Quick Delivery, send your HEMSTITCHING to Barton's Music & Sewing Machine Store, Fernie, B.C. [N25]

Work on the new sidewalk extensions was commenced by Contractor Pozzi on Wednesday and will be rushed to completion.

Mr. D. Emery assumed charge of the Tea Kettle Inn last week end. T. Brewer and family have moved to Lethbridge.

Mr. and Mrs. Fraser and Joe Ink, of Kootenay Bay, were visiting at the home of Mr. and Mrs. Robert Gray during the week.

A new cable has been laid from 'Azores, a distance of 1341 miles, at Azores, a distance of 1341 miles, at a cost of \$1,800,000.

All previous records were broken by British Columbia's industrial pay-roll in 1927, when it reached a total of over \$177,000,000.

A dance will be held in the Kootenay hall at Natal on Tuesday night next, with the Altermatt orchestra in attendance.

One million dollars of the funds of the Southern Baptist Mission Board are reported missing with the disappearance of Clinton S. Carnes, the treasurer.

A speaker remarked the other day that real Christianity cannot flourish in a money-mad nation. One may as well try to organize a building and loan society among the gypsies.

Miss Smith, who has accepted the position as primary specialist on the local teaching staff, arrived from Edmonton on Monday and entered upon her new duties on Tuesday morning.

A meeting of the Blaimore Board of School Trustees was held last night, when a number of accounts were passed for payment and the class arrangement for the term as planned by the principal was considered.

The Knights of Rhythm dance orchestra, of Blaimore, has been engaged for a series of whist dances to be held in the I.O.O.F. hall, Bellevue, beginning Friday, September the 21st, under the auspices of Ray of Hope Rebekah Lodge.

We beg to acknowledge a gift of a lovely bouquet of cut flowers, grown in the local courthouse grounds. The grounds, under the capable supervision of Const. Burns, caretaker, is at its best now and a source of delight to passers by.

City playgrounds are necessary to ensure the physical development of our children. But this is only one of the reasons why they are needed. Above all they are needed to defend our children from the dangers of the street.—Three Rivers Novelliste.

The Nova Scotia house has been dissolved and Premier Rhodes has announced that a general election will be held on October the 1st, with September 24th as nomination day. The Conservative leader is appealing to the country after three years of government.

A farmer near Cowley has named his pet rooster Robinson, because it Cruises.

Miss Isabel Morrison, of Cowley, has assumed the position of primary teacher at Frank.

Miss Edna Flaher entered upon her duties as teacher at the Olin Creek school, north of Cowley, on Monday.

M. L. McKinnon and family have returned from an extended visit to points in Nova Scotia and Cape Breton.

Miss M. A. Hyson left by Friday night's train for Clareholm, where she has accepted a position as teacher.

Mr. and Mrs. G. A. Passmore have returned from a holiday visit with their daughters at Cranbrook and Vancouver.

A High River man says he knows of a man who, although he has not enough money to pay for it, steadfastly refused to pay a car.

A large number of Masons journeyed from here to Cowley and Pincher Creek on Tuesday evening to attend funeral services of the late H. D. McMillan.

Mr. and Mrs. C. J. Tompkins left by Sunday night's train for Banff, where they attended the get-together of representatives of the Sun Life Assurance Co.

HOUSE FOR SALE at a sacrifice. Fully furnished, six rooms, on two lots at desirable corner. For further particulars, apply to A. J. Smith, Blaimore.

John Kerr, of Pasaburg, added another marathon trophy to his credit when he won the five-mile go against all comers at Banff on Saturday last. Time: 28 minutes, 21 seconds.

Thomas Smith and William Peters will represent the Blaimore Unit of the Mine Workers' Union of Canada at the big convention to be held at Calgary, commencing Monday next.

Six lives were snuffed out by an explosion in the mine at Coal Creek on Thursday last. The six were: Peter Dowle, Tony Casola, Joseph Hedrovicek, George Perkins, senior, Tony Sprolak and Tony Degorta, all married.

P. Chardon moved into new premises, in the Sartoris building, first door west of the Union Meat Market, on Tuesday. Mr. Chardon proposes to stock groceries, fruits and confections, and to serve light lunches, ice cream, etc.

We received this note on Monday: "Find enclosed eight dollars for arrears. This should assist in keeping hard times from knocking at the door of The Blaimore Enterprise. I like your paper; keep sending it along. I will pay you again in 1932." Signed "Scotty."

Bishop Kidd, bishop of Calgary, preached at St. Anthony's church on Sunday evening last. His Lordship preached a very powerful sermon on Faith, to a very large congregation, who listened with rapt attention. His Lordship's visit to Drumheller was for the purpose of conferring with Father Cosman, the pastor, on important church matters. He spent Monday with Father Cosman and left for Calgary on Monday evening's train.—Drumheller Review.

Noel Leeco, a miner, fifty-three years of age, suicided in a fit of despondency at Coleman on Saturday night last. His body was found hanging to a cellar step. He leaves a wife, residing in Belgium. The funeral took place on Tuesday, the remains being laid to rest in Coleman cemetery. Deceased was a charter member of the Order of Owls branch, formed in Coleman about fifteen years ago, and was very well and favorably known.

Three cases of infantile paralysis have developed in one family at Grauman.

Mrs. Griffiths, of Charlottetown, P. E.I., is a guest of her daughter, Mrs. James Smith, at Lundbreck.

Misses Julia Dutil and Gladys Thibodeau have entered Holy Cross hospital at Calgary to take a course in nursing.

Mr. and Mrs. D. G. Mackenzie and son Donald left by motor Tuesday morning for the coast via Spokane and Seattle.

Mr. and Mrs. J. A. McEachern, of Seattle, are visiting at their Hereford ranch near Burnie, which is managed by Mr. William Bennett.

Mrs. George Brown and daughter Amy accompanied Rev. A. D. and Mrs. Currie by motor to Lethbridge the early part of the week.

A district meeting of Oddfellows will be held in the L.O.O.F. hall at Bellevue on Monday night next, at which the grand master will be present.

A meeting of the town council was held on Tuesday night, at which a number of accounts were passed for payment and the town's assessment was finally approved.

William Ross, chairman of the board of distillers of Scotland, and brother of the late John Ross, has arrived at Lundbreck on a visit of inspection of the Ross ranch.

Mr. and Mrs. J. S. Stevenson are home from a ten-day motor trip to southern resorts and Mr. and Mrs. J. Bishop, who were relieving as hosts at the Seymour, have returned to their home at Brooks.—Hanna Herald.

The law firm of Gilles & Mackenzie has been dissolved as at August 31st. Mr. Mackenzie, we understand, will take up residence at the coast for a while, and that the business here will be carried on by Mr. J. E. Gillis.

Mr. and Mrs. James K. Hetherington, of Cowley, announce the engagement of their only daughter, Ruth Eileen, to Cecil A. Easterbrook, son of Mrs. E. S. Easterbrook, the marriage to take place in the latter part of this month.

E. V. Robertson, a prominent Calgary lawyer, died in the general hospital, Calgary, on Monday midnight, following but a brief illness. He was forty-one years of age and a native of Fifeshire, Scotland. He is survived by his wife, two young sons, his mother and sister. The remains will be laid to rest at Calgary this afternoon.

**\$30,000 AS COMPENSATION
ACCEPTED BY OSCAR SLATER**

London, Aug. 7.—Oscar Slater, who was cleared of charges of murdering a woman after he had served nearly 20 years in prison, today accepted the government's offer of \$30,000 compensation for wrongful conviction.

"Be Pachtant"

A Toledo, O., grocer recently received the following from a delinquent customer:

"Dear Sir: I got your dune what I owe you. Now be pachtant. I ain't forgot you, please wait. When some other fools pay me I pay you. If this wuz judgment day and you was no more prepared to meet your Maker as I am this account, you are wuld go to hell. Hoping you will do this, I remain, Yours very truly."

Classical

Two ladies were listening to the band. Said one: "That is something from Wagner, I think."

Said the other: "I think it is a nocturne of Chopin's."

Said the first: "I'll go and look on the announcement card."

And back she came to her friend with the words: "We're both wrong. It's a Refrain—from Spitting."

JAMIESON-PONDELICK

On August 28th, St. Anne's church was the scene of a strikingly pretty wedding, when Miss Vlasta Pondelick, of Blaimore, became the bride of Mr. Roddy Jamieson, of Coleman.

The bride, who looked very charming in a gown of delicate peach georgette, entered the church on the arm of her father. She was attended by her sister, Miss Milly Pondelick, who was also becomingly gowned in honeydew georgette and white picture hat.

The bride's brother, Mr. Tony Pondelick, acted as best man. After the ceremony, a reception was held at the bride's home.

The members of the Junior C.W.L., of which Mrs. Jamieson is a member, extend the couple their sincerest wishes for many years of perfect happiness in their new state of life.

SCOTCHWOMAN AND JEW

London. — Mrs. Elizabeth Collins, denying at Bournemouth County court that she gave Abraham Levinson a free hand to advertise a boarding-house in a Jewish newspaper, said to the judge:

"Do you think that I, a Scotchwoman, would give him £50 to play with? It would be a standing joke in the music-halls for years that a Jew got £50 of a Scotchwoman's money to play with."

Mrs. Collins won her claim for £10.

Lives of pluckiers remind us, We can camp at Walrod dell, And departing leave behind us Scraps of food that look like heck.

Forgive Us Our Debts

The local church was making a drive for funds, and two colored sisters were bearing down hard on Uncle Rastus.

"I can't give nothing," declared the old negro. "I owes nearly everybody in this here old town already."

"But," said one of the collectors, "don't you think you owe the Lord something, too?"

"I does, sister, indeed," said the old man, "but He ain't pushin' me like my other creditors is."

Speaking of Cats

A grammar schoolboy handed in the following composition on "Cats": "Cats that's made for littel boys to maul and tease is called Mautouse cats. Some cats is reckernized by how quiet their paws is and these is named Porsian cats. The cats what has very bad tempers is called Angorie cats. And cats with deep feelin's is called Feline cats. I don't like cats."

A clergyman who had given up his former position as a magistrate in order to enter the Church was conducting his first marriage service.

"Willt thou have this man to be thy wedded husband?" he asked the bride. The bride answered promptly: "I will."

"And you," he continued, addressing the bridegroom, "what have you to say in your defence?"—Tit-Bits.

A young woman who seemed to be having her first experience in a bank, approached the window of a paying teller and gave him a large cheque which she wanted to cash.

"How do you want the money?" the teller inquired, "Oh," replied the young woman in some confusion, "I'll just hold out my hand and you can put the money in it."

Leave It To Them

"I can't marry him, mother. He's an atheist, and don't believe there's a hell."

"Marry him, my dear, and between us we'll convince him that he's wrong."

This little parody on "Mary and her little lamb" was left recently by the Scriven vaudeville troupe:

Mary had a little bear; She treated it so kind, That everywhere that Mary went You'd see her bear behind.

Blaimore Phone 46 Bellevue 12a Hillcrest 61a Coleman 53

Miss Rose Varley, of Edmonton, is visiting her parents, Mr. and Mrs. H. Varley. Mr. Varley has been very ill for the past three weeks, but is now on the road to recovery.—Cadomin note in Edison-Jasper Signal.

Mr. Ingram, official organizer for the Royal Order of Moose, was a visitor to Coleman and Blaimore the early part of the week. He will return here today and attend a special meeting of the local lodge tonight.

It Isn't a Long Walk

TAKE the few steps to the Bread-box several times a day — whenever you feel low in energy. Get yourself a slice of

MOTHER'S BREAD

Have it Served With Your Meals

It will preserve your health. Eat plenty of this pure, wholesome loaf, nature's perfect food. Better far keep your health than try to regain it.
